

About the Report Card

State and federal laws require public school districts to release report cards to the public each year.

The federal Every Student Succeeds Act requires that states annually assign schools a summative designation that meaningfully differentiates school performance based on multiple performance measures. All states were offered a waiver of this requirement for school year 2020-2021 due to the impact of COVID-19. For more information about Illinois' accountability system please visit www.isbe.net/summative.

For additional information, refer to the [Public Business Rules for 2024 Report Card Metrics](#) and the [2024 Glossary of Terms](#).

29 | Civil Rights Data Collection (2021-22)

Date: 10/21/25 15:32:33 -05:00

About the data

Academic progress data includes information regarding assessments, such as student participation rates, proficiency rates, and mean student growth percentile. Other information regarding academics may include certain touchstones, such as eighth-graders passing Algebra 1, graduation rate, and various advanced coursework information. Academic progress often is disaggregated further into demographic student groups.

Participation Rate

What is it?

This shows the percentage and number of students participating in standardized testing, by subject and applicable test. Some students may take the test for one subject but not another. According to Illinois School Code, all students enrolled in public schools are required to participate in the state assessment or an alternate form of the assessment. Students who participate but for various reasons do not complete the testing process (e.g., illness) are still counted as having participated.

About the data

School environment data includes information regarding finances as well as information regarding conditions in the classroom, such as average class size and total school days.

School Level Finances

What is it?

Average spending per student at this school, as collected through the unaudited ESSA Site-Based Expenditure Report. Districts report the actual dollars spent in the previous school year, including site-level costs (like school staff) and districtwide centralized costs allocated to each individual school (like transportation and central office staff), divided by the school's enrollment. Districts also report whether federal or state/local sources funded the spending.

	Site level Per Pupil Expenditures				District Centralized Per Pupil Expenditures			Total Per Pupil Expenditures			Total	
	Enrollment	Federal	State/Local	Subtotal	Federal	State/Local	Subtotal	Federal	State/Local	Total	Exclusions	Expenditures
School												
District												

* indicates non-reported data. ‡ indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

Total School Days

What is it?

This shows the total number of days in which the school provided at least five hours of instruction during the school year. The minimum length for an Illinois public school's year is 176 days. The number of actual calendar days varies from district to district.

Total School Days	
School	
District	
State	176

* indicates non-reported data. ‡ indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

About the data

Student data includes information regarding the student population, including enrollment and attendance data, as well as information regarding specific student groups, such as gifted students and English Learner students. Student data often is disaggregated further into demographic student groups.

Student Enrollment

What is it?

This shows the total percentage and number of students enrolled in this school as of October 1 of the current school year. District-level enrollment includes students attending a school in the district and students placed in private schools by the district and funded by the district. The student enrollment excludes the following:

- Students given vouchers to attend private schools
- Students placed by their parents in private schools whose tuition is paid for by their parents, but who receive special education services from their home district

District
State

* indicates non-reported data. ‡ indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

About the data

Summative designations are ratings that help families and communities understand how well schools are serving all students. Illinois has five summative designations: Exemplary School, Commendable School, Targeted School, Comprehensive School, and Intensive School. Targeted Schools and Comprehensive Schools receive additional funding and supports to build local capacity and improve student outcomes. Multiple measures of school performance and growth determine a school's annual* summative designation.

* Federal waivers issued in 2020 and 2021 impacted accountability. For more information, see www.isbe.net/summative.

Title I Status

What is it?

Title I Status indicates if an entity receives funds from the Title I grant. If an entity receives Title I funds, their status can be "Title I Targeted" or "Title I Schoolwide." Title I Targeted assistance programs must focus services to identify students most at risk of failing through multiple objective criteria. Services, including supplies, must ONLY focus on those students identified. Title I Schoolwide programs may focus services to the entire school. Schoolwide Title I Status is defined as a school with 40 percent or greater of the students enrolled classified as low income. Schoolwide programs are not required to identify students at risk and thus may focus their funding and efforts on raising achievement of the whole school.

Title I Status	
School	

* indicates non-reported data. ‡ indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

School Improvement Funds

What is it?

Funds authorized under Title I, Part A, Section 1003 School Improvement of ESSA are allocated on a formula basis to LEAs serving the state's lowest-performing schools that are implementing comprehensive support and improvement activities or the state's underperforming schools that are implementing targeted support and improvement activities. School Improvement funds are disbursed by the Illinois State Board of Education to eligible LEAs via the IL-EMPOWER Grant to assist schools in improvement status develop, implement, and monitor effective School Improvement Plans. The purpose of the funding is to build the capacity of school leaders to implement effective school improvement practices, and the goal is to enable schools in improvement status to improve student achievement and performance outcomes and to exit status. LEAs use school improvement funding for the following types of planning and implementation activities:

- Contracting for professional services from state-approved learning partners.
- Conducting school-level needs assessments.
- Analyzing data.
- Identifying resource inequities.
- Researching and implementing evidence-based interventions.
- Purchasing standards-aligned curriculum and materials.
- Purchasing and administering local assessments for progress monitoring.
- Paying school personnel to collaborate and to develop, implement, and monitor School Improvement Plans.

Schools Who Receive Title I School Improvement - 1003(a) Funds

Cohort Year	School Improvement Status	Term within School Improvement Status Cycle	Current School Improvement Grant Term Allocation	Reason for Improvement Status & Grant Allocation

About the data

Teacher data includes information regarding teachers, including salary, retention, and education, as well as information comparing the ratio of teachers to students.

Teacher Information

What is it?

This shows information pertaining to teachers, including experience, education, attendance, and evaluation.

	All Schools	Attendance Rate	Evaluation Rate
School			
District			
State	13.6	66.0	97.2

* indicates non-reported data. ‡ indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

Full-Time Equivalents

What is it?

This shows the total percentage and number of teacher Full-Time Equivalents. The number of teachers at each school varies greatly depending on the student population, schools' grade configuration, programs offered, and the financial resources of the district. This displays the race and gender distribution by FTE for teachers in (this school/this district/the state). The table shows distribution by FTE, of *full-time equivalent*. FTE counts take into consideration employees who are employed less than full time, adding together the representative percentages of their level of employment (so 2 half time/.5 employees = 1FTE). Information is gathered about the race/ethnicity of school and district teachers. The percentage of male and female teachers is also compiled.

District			
State	57.0	55.8	63.4

Student-To-Teacher Ratios

What is it?

This shows the average number of students per teacher. Teachers classified as special education teachers are not included. Research indicates that children in lower grades show the potential for higher achievement scores when they are in smaller classes. Many factors contribute to student achievement, and class size is only one part of this bigger picture. Special education classes are not included in this calculation.

	Student-Teacher Ratio
School

Administrators & Support Personnel

Pupil Support Personnel Ratio

What is it?

These tables display the average number of students per counselor, the average number of students per nurse, the average number of students per social worker, and the average number of students per psychologist in this entity (whether it be school, district, or the state.) The ratio is calculated by using the fall enrollment total, divided by the number of FTE psychologists. When examining school or district ratios keep in mind that the number of psychologists can vary greatly between schools and districts, depending on their size, student population, programs, and financial resources.

Student/Support Personnel Ratio

	Student/School Counselor Ratio	Student/School Nurse Ratio	Student/School Psychologist Ratio	Student/School Social Worker Ratio

About the data

The Civil Rights Data Collection (CRDC) is a biennial (i.e., every other school year) survey of public schools that has been required by the U.S. Department of Education Office for Civil Rights since 1968. The CRDC collects data on leading civil rights indicators related to access and barriers to educational opportunity from early childhood through Grade 12. The CRDC collects data from public Local Educational Agencies and schools, including juvenile facilities, charter schools, alternative schools, and schools serving only students with disabilities.

Student Environment

What is it?

Data from the Civil Rights Data Collection (CRDC) comes directly from the U.S. Department of Education (ED). ED collects the data directly from ISBE and school districts and releases the information on a two- to three-year delay. ISBE also collects some of these data elements from districts and reports the results in the year it was collected. Current year data for in-school suspensions, out-of-school suspensions, and expulsions is reported by ISBE in a separate report on www.isbe.net. Current year data for chronic absenteeism can be found in the Students section of the Report Card. Please note data may not match due to differences in data collection methods.

Academic Environment

What is it?

Data from the Civil Rights Data Collection comes directly from ED, which collects the data directly from ISBE and school districts and releases the information on a two- to three-year delay. ISBE also collects some of these data elements from districts and reports the results in the year it was collected. Current year data for accelerated coursework can be found in the Academic Performance section of the Report Card. Please note data may not match due to differences in data collection methods.

School	Enrolled in PreSchool	Advanced Placement (AP) Course Work	Advanced Placement Course Work	Dual Credit Course Work
			International Baccalaureate (IB) Course Work
